RIKCY TANO

Cebu City, Philippines | tanorikcy2005@gmail.com | LinkedIn | Portfolio | Github

Software Engineer with hands-on experience, building reliable systems for business owners that need IT solutions. In the field of work, 3 traits are being used, diligence, willingness, and commitment. In each problem, there is no means of stopping unless it is solved, problems are a way of learning and improving, and with it, reliable, stable, and useful systems are being pushed.

EXPERIENCE

Start-up Co-founder of Tabo
Cebu City | June 2025 - Present
- Helped build the idea into production. As a co-founder of this platform I dedicated myself to learning a lot of new things that are out of my own capabilities, learning the fundamentals of System Architecture and Design in order to maintain the platform for production, maintain dozens of users, and handle traffic during production.

Full-Stack Developer
Cebu City | August 2026 - Present
- Designed, built, and maintained custom web systems for business owners, delivering practical IT solutions that helped streamline operations, attract new customers, and drive growth.

Immersion at Qualfon Cebu
IT Park | April 2024 - May 2024
- Handling repetitive tasks at the company by managing the archive.
